Checking on that. We are only set for dump trailers but we are inquiring on palletized super sacks for sample material.

I forgot...is there an option to ship off a few cubic yard boxes?

We won't be in the red yet. We are doing the month end 1900 for June and finalizing the T&D invoices. I will get you that as soon as they finish processing and also get you an estimate update.

PS. I need to know ASAP where we stand with 1900-55 to ensure we don't go into the red by end of the month. I would like to tell Mark tomorrow if we need money this week, Monday or other just to stay afloat

Hi Guys:

As you both know, I have been instructed by my management to shut down NFB site due to lack of funding. The earliest we will return to NFB Site for removal work will be Spring 2018. We will have to mobilize at the site to remove the trailers, containers and equipment that is still staged currently at the site. This should take 7-10 days (depending on what further info we obtain) and is tentatively planned for the week of July 31<sup>st</sup>.

Everything will be leaving the site. Containers, trailers, equipment, fencing. We will not be staging any samples and we may need to ship off any remaining material in jars and bags. So we need to discuss the potential of shipping out a smaller amount of material. Is there a way to ship one cubic yard bag? For now, please put add T&D truck in your financial estimate.

Chris Jimenez and I will meet with Shawna and Mark Pane tomorrow to discuss contract needs. Right now I have \$40K as the estimated cost for Demobe from GES.

This lack of funding also means there will be no removal work conducted at the other Niagara County Radiological Sites. In addition to funding, Holy Trinity Cemetery still needs a finalized action memo based on current assessment results and we still need to determine if 738 Upper Mountain Road is eligible for a removal.

I will be coordinating with Public Affairs on how we will inform the public, property owners and local/state agencies. Please keep this information in house for now.

Thanks
